Browsers: Bookmarking Sites

In this guide, we'll show you exactly how to add a bookmark using the **Chrome browser**. Please note, the steps for **Microsoft Edge** differ slightly but are similar.

---

1. Open the Chrome

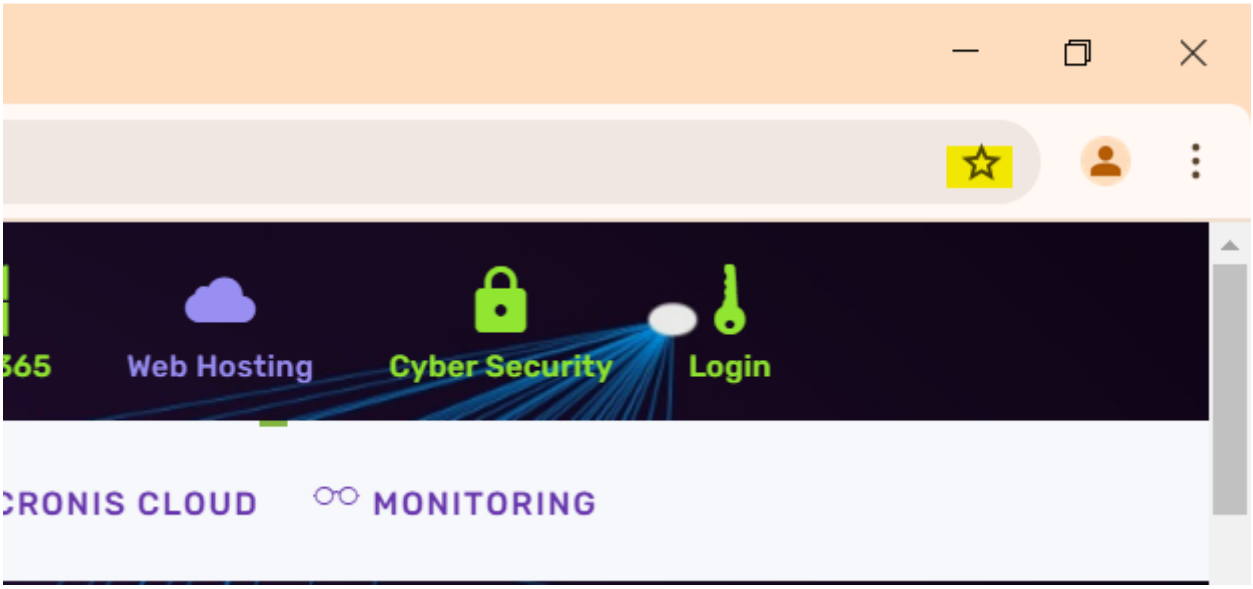

Open **Chrome** and navigate to the website you wish to bookmark.

---

2. Bookmark a site

In the top-right corner, click the **Star icon** to bookmark the site.

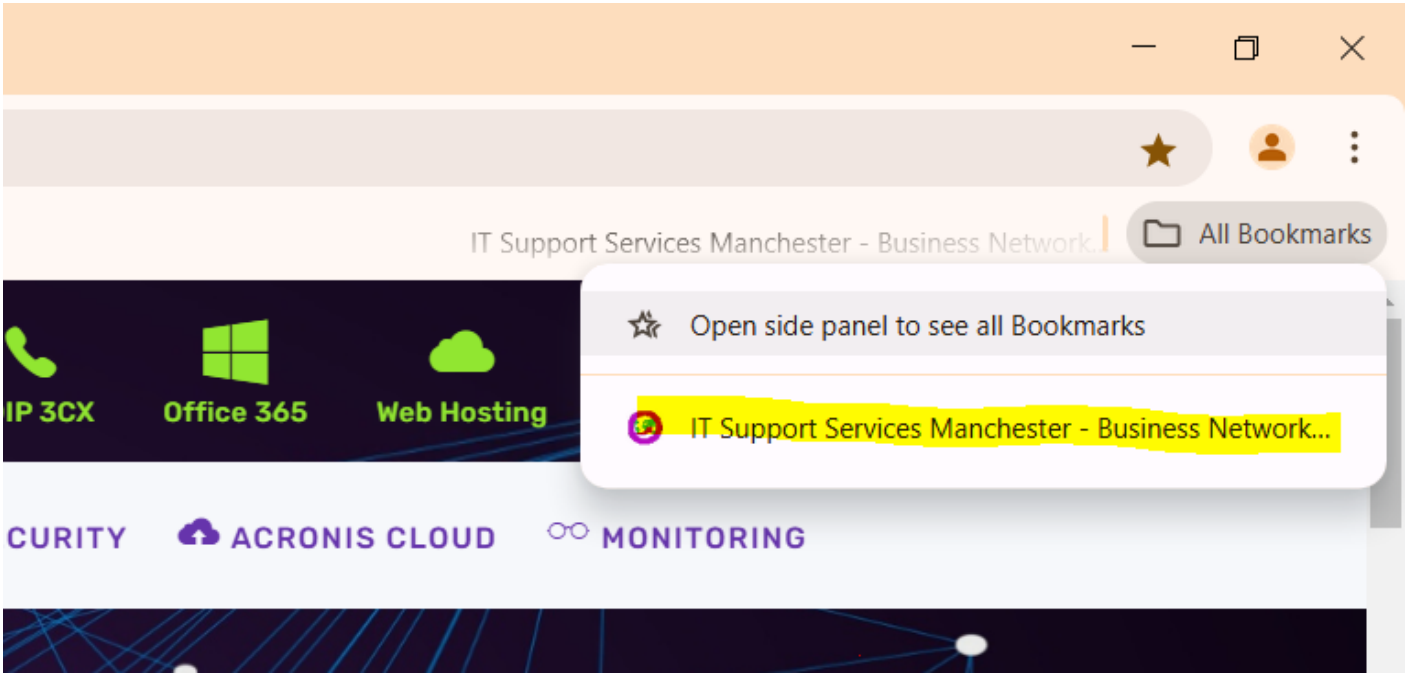

3. Bookmark Bar

Press **CTRL + SHIFT + B** to display the bookmarks bar if it isn't visible.

4. Drag & Drop

At the top of the screen, open the **"All Bookmarks"** menu. **Drag** the newly bookmarked site from the list onto the bookmarks bar for easy access.
