Outlook: How to Set Up an Email Account on Outlook for Android

Follow these steps to download Outlook on your Android phone and set up your email account.

---

1. Download the Outlook App

Instructions: Open the **Google Play Store** on your Android device.

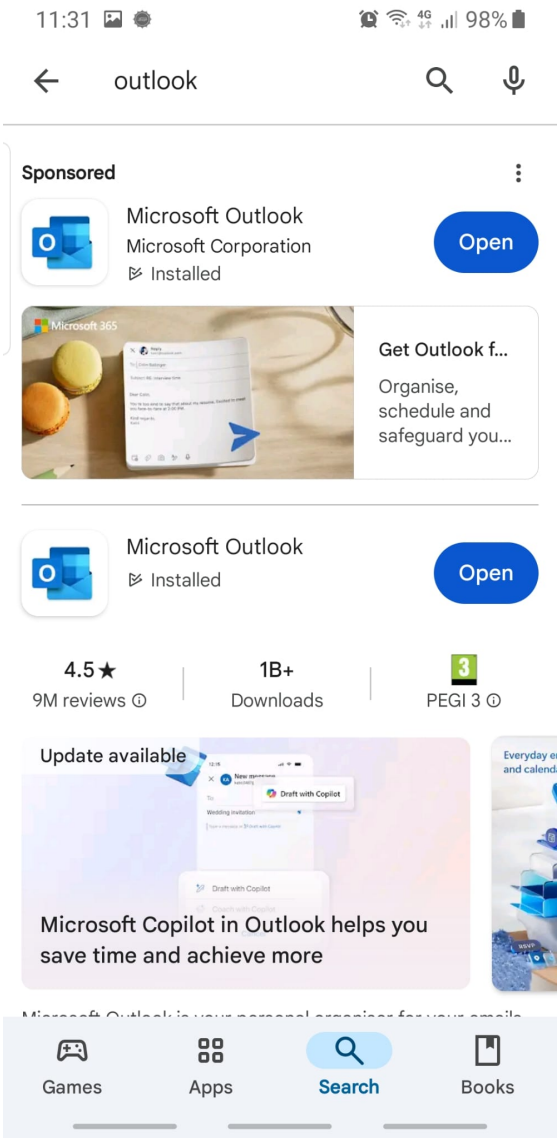

Action: Tap on the **Microsoft Outlook app** and then tap **Install**.

---

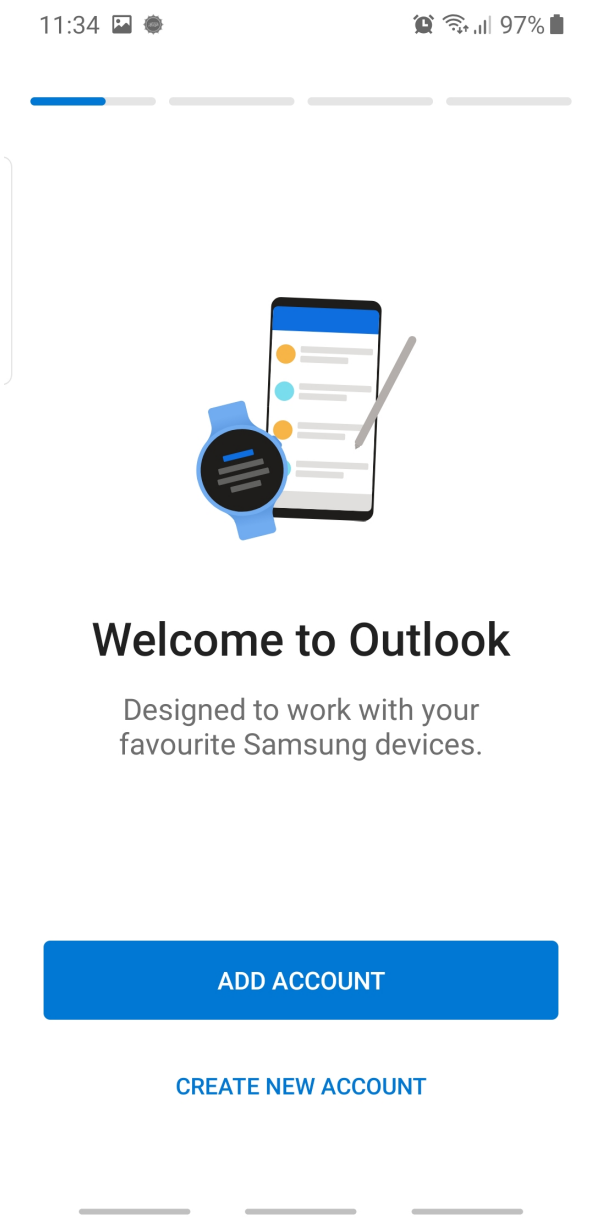

2. Open the Outlook App

Instructions: Once Outlook is installed, tap **Open** to launch it.

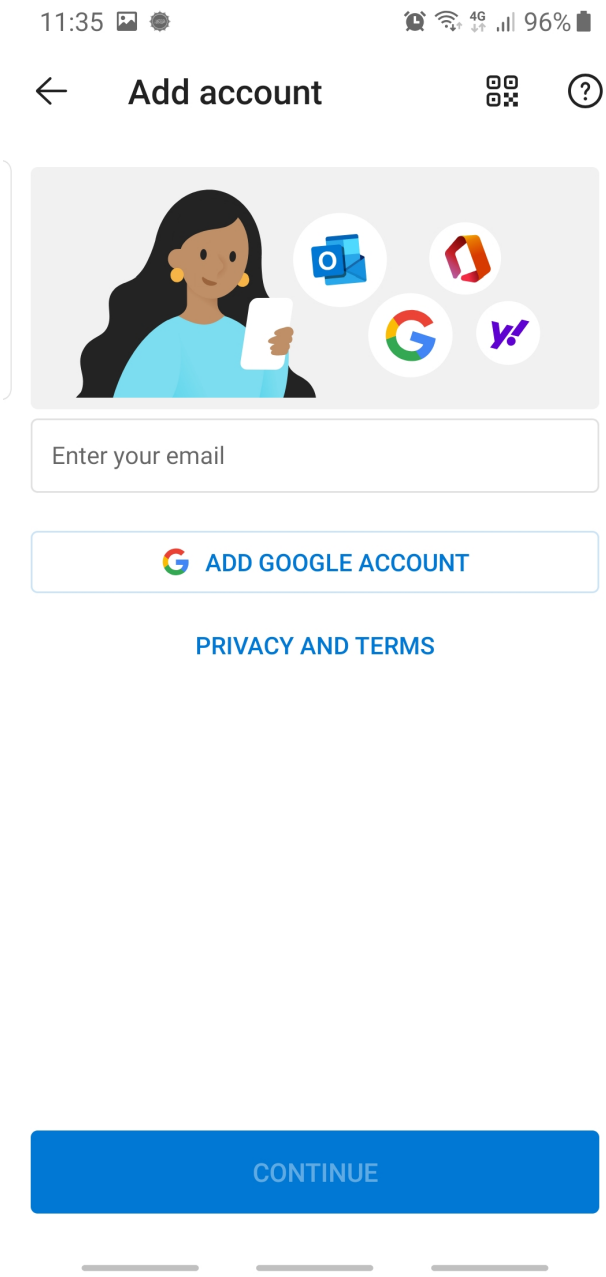

3. Get Started with Outlook

Instructions: When Outlook opens for the first time, tap **Get Started**.

4. Add Your Email Address

Instructions: Enter your email address in the provided field and tap **Continue**.

5. Enter Your Password

Instructions: You'll be prompted to enter your email password. Type in your password and tap **Sign In**.

6. Approve Permissions (if prompted)

Instructions: Outlook may ask for permissions to access your contacts, calendar, or files. Tap **Allow** for any permission prompts.

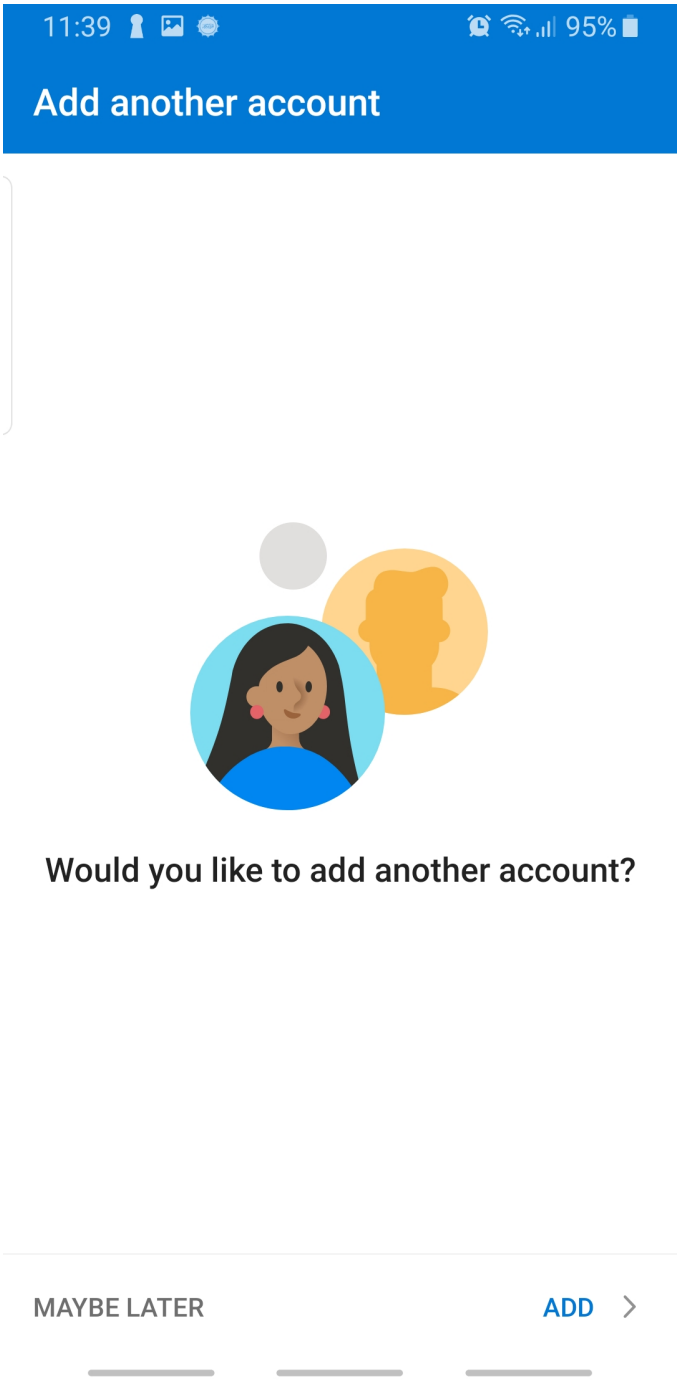

7. Choose Notification Settings

Instructions: You'll be asked how you want Outlook to notify you. Select **All**, **Focused only**, or **None**, based on your preference.

---

8. Finish Setup

Instructions: Tap **Skip** or **Continue** to finalize the setup (based on your preferences for additional accounts or tutorial).

9. Verify Account Setup

Instructions: Your inbox should now display. If you see your emails, the setup is complete!
